

Invitation to participate in the research study for:

"Treasure Room: A website which allows the public in the UK to find their lost items."

Dear participant,

I am a final year computer science student at Brunel University London. For my final year project, I am developing a website called Treasure Room which focuses on allowing the people in the UK to find their lost items which the police cannot hold due the new lost and found laws introduces in February 2019 which allows the police to only hold lost items which are at least £500 and can be identified to someone.

I am writing to you to invite to you to be a participant in the project. If you decide to go ahead with being a participant, you will be able to access the website. In terms of data collection, your data including your first name, last name and a valid email address will be collected if you wish to post about a lost item you have found, or you are trying to retrieve a lost item from someone. The main purpose of the participation is to make use of the website and give an honest feedback in an anonymous questionnaire which will allow me, the researcher to evaluate the success of the project. You will be able to withdraw from the participation anytime until 26/03/2021.

If you wish to be a participant, you can revert back to this.

Thank you for reading this.

Yours sincerely  
Aryan Dang  
Researcher
